

Adobe CS Support and Training Resources

Congratulations on completion of this workshop. This is only the first step on the path of becoming an expert, but you're not alone.

Below is information on what to do next, from installing Adobe software to getting support and training.

Installing Adobe Software

 **Adobe** Adobe Creative Suite is available to UMass Boston faculty and staff for \$15. To request a CD, please contact software@umb.edu. Mention Adobe CS5.5 or CS6 specifically.

Digital Learning Studio

The DLS is a computer lab on campus specifically for faculty and staff to work on multimedia projects, and get help and training from resident consultants.

Located on 3rd floor Healey (to the right of the IT Service desk), we have the whole Adobe Creative Suite installed, as well as scanners, color printers and lots of video editing software and equipment. Come in to work on your own, or call/email to set up a training appointment.

Digital Learning Studio 617-287-5970 DLS@UMB.edu

Atomic Learning

Atomic learning is a new resource available to UMass faculty, staff and students. It is a massive collection of video screencasts for all of the software supported by

UMass, and much, much more. Each software has many training videos available, and it's all free for anyone with a UMass Boston email address. <http://umb.edu/atomiclearning>
