

Linking the ECHO360 Active Learning Platform with Blackboard

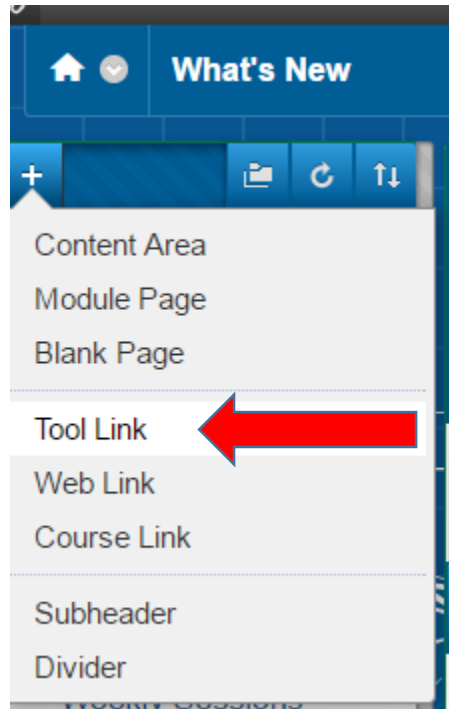

Step 1: Login to Blackboard: <https://umb.umassonline.net>

The screenshot shows the Blackboard Learn Login page for the University of Massachusetts Boston. The header includes the university name, a search bar, and social media links. A navigation bar contains links for Register for Courses, Life on Campus, News, Events, Email, WISER, and Blackboard Learn Support. The main content area features a login form with fields for Username and Password, a Login button, and a link for 'Forgot Your Password?'. To the right, there is a promotional banner for 'IT Services for Students' with an image of a student and text about downloading Microsoft software for free. At the bottom, a welcome message reads 'Welcome Students & Faculty'.

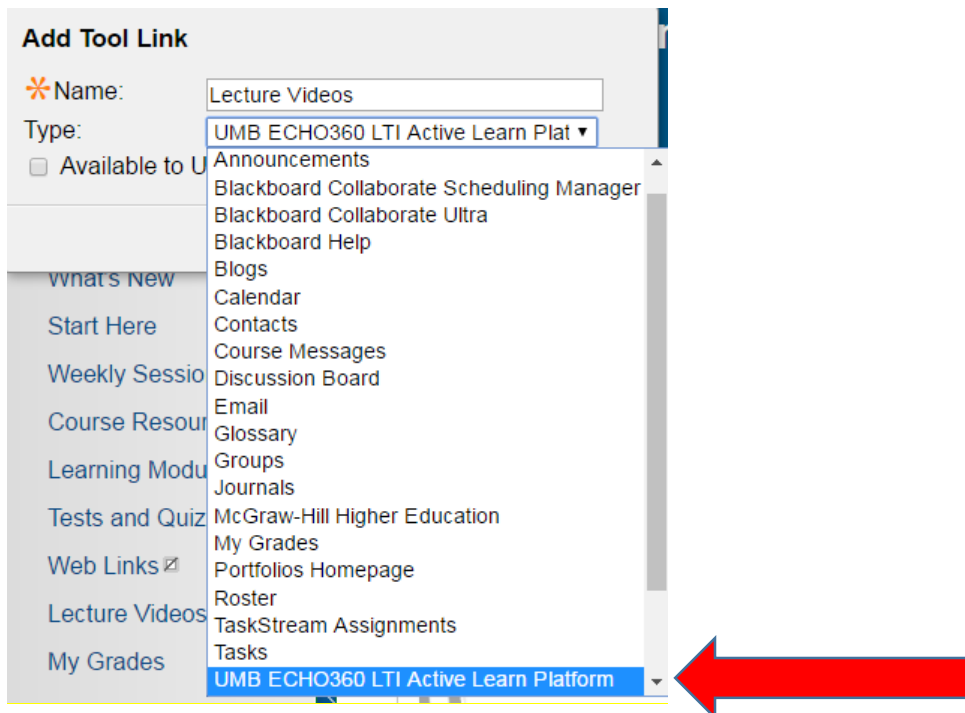

Step 2: Navigate to the selected course which you are instructor of and enter the courseshell:

The screenshot displays the 'My Courses' section in Blackboard. It lists several courses where the user is the instructor. The first course is 'AF 210 P 1 03 Financial Accounting Fall 2016', which is unavailable as of January 11, 2017. The second course is 'ASIAN 115L P 1 01 Survey of Contemporary Asia Spring 2017', which includes an announcement for a textbook: 'A Concise History of Modern India by Metcalf and Metcalf'. The third course is 'BIOCHM 384 P 1 01 Biochemistry II Spring 2017'. The fourth course is 'BIOL 101 E 1 02 Basis Of Life Spring 2016', which is unavailable as of June 8, 2016. The fifth course is 'BIOL 101 PF CE2 51 Basis Of Life Fall 2016', which is unavailable as of January 11, 2017. The sixth course is 'BIOL 210 P 1 01 Cell Biology Fall 2016', which is unavailable as of January 11, 2017.

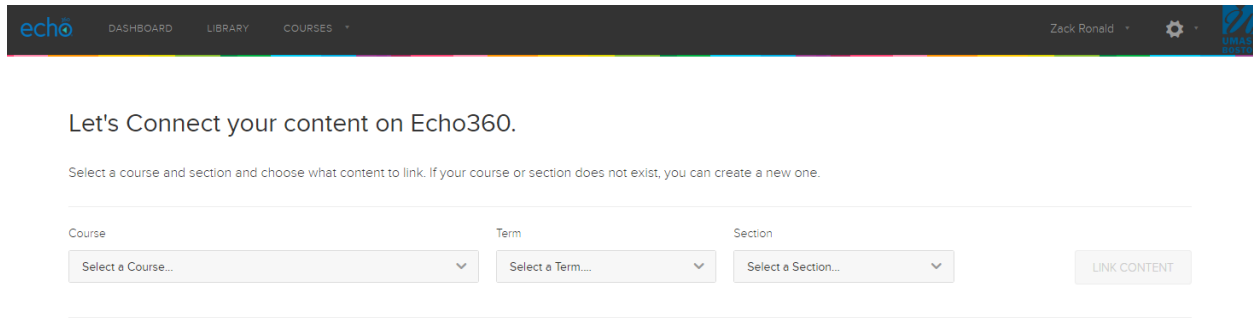

Step 3: Once inside of the course, Click the plus(+) button on the left menu- and then click **Tool Link**

Step 4: Name the tool link (whatever you like) and Select **UMB ECHO360 LTI Active Learn Platform** as the tool. Check the **Available to students** Checkbox as well.

Step 5: Connect ECHO360 to Blackboard by selecting the correct course, term and section.

The screenshot shows the Echo360 interface. At the top, there is a navigation bar with the Echo360 logo, 'DASHBOARD', 'LIBRARY', and 'COURSES'. On the right, it says 'Zack Ronald' and has a gear icon. Below the navigation bar, the text reads 'Let's Connect your content on Echo360.' followed by the instruction 'Select a course and section and choose what content to link. If your course or section does not exist, you can create a new one.' The form consists of three dropdown menus labeled 'Course', 'Term', and 'Section', each with a placeholder text 'Select a Course...', 'Select a Term...', and 'Select a Section...' respectively. To the right of these dropdowns is a button labeled 'LINK CONTENT'.

Step 6: Make sure that once connected the tool link connects back to ECHO360.

If you have any issues please let me know.
